Things to consider before you start

Your health care needs

Make an honest assessment of your overall health. Think about how often you visit doctors, clinics, hospitals, or specialists. Also, consider your budget for health-related expenses, both monthly and annually.

Your doctors

Do you already have a doctor you prefer or specialists you see? Are you open to different doctors if it means lower costs or different benefit options?

Your prescription drugs

Make a list of your medications and estimate your annual out-of-pocket costs.

Other insurance needs

Some plans offer additional vision, dental, and hearing benefits as well as fitness programs to help you stay healthier. You may save money by choosing a plan that includes these additional benefits.

Medicare may be overwhelming, but with Alight by your side, you have professionals who live and breathe Medicare—so you have a shoulder to lean on. We can break it down and help you to choose the coverage that works for your needs.

TIP

You must have Original Medicare Parts A and B before enrolling in additional coverage through Alight, including Medicare Advantage and Medigap plans.

Original Medicare and how to enroll

Medicare is a health insurance program for people age 65 or older. People younger than 65 can also qualify for Medicare, including those with disabilities and permanent kidney failure.

Created in 1965 as a government program, Original Medicare started with Part A and Part B. Later, Part C and Part D were added as the needs of Medicare beneficiaries changed.

To qualify:

-  You must be age 65 or older, a U.S. citizen or a permanent U.S. resident and have lived in the U.S. continuously for five years prior to applying.
-  You can be younger than 65 with a qualifying disability.
-  You have been diagnosed with end-stage renal disease or amyotrophic lateral sclerosis (ALS; also known as Lou Gehrig's disease) at any age.
-  You should be automatically enrolled in Original Medicare if you're already receiving Social Security or Railroad Retirement Board benefits when you become eligible. If you're not receiving either of these benefits, you need to sign up with Social Security to get Original Medicare Parts A and B when you become eligible.

You can enroll in Medicare in one of 3 ways

1. Visit your local Social Security office

2. Call Social Security at
1-800-772-1213
(TTY 1-800-325-0778)
8 a.m. – 7 p.m., Monday – Friday

3. Apply online at ssa.gov

If you worked for a railroad but are not receiving benefits, call your local Railroad Retirement Board office or 1-877-772-5772, general TTY 312-751-4701, 9 a.m. – 3 p.m., Monday – Friday

Additional enrollment information:

- If you're still working and covered by employer health insurance when you turn 65, you can sign up for Medicare Part A (hospital coverage) and delay enrolling in Part B. But you must sign up for Part B no later than eight months after you leave your job and lose group coverage, or if you're still employed and lose creditable coverage. Otherwise, you may pay a lifetime penalty and have a gap in coverage.
- If you sign up for Medicare Part B after the initial enrollment period, your coverage starts on the first day of the month following your enrollment.
- It may take up to 60 days to get approved for Original Medicare Part B, and up to three weeks to receive your Medicare card in the mail.

Original Medicare

What's covered

Original Medicare Parts A and B help pay for hospital stays and doctor visits, but it doesn't cover everything.

Part A

- Inpatient hospital care
- Inpatient care in a skilled nursing facility
- Hospice care
- Home health care

Part B

- Medically necessary services (services or supplies to diagnose or treat a condition that meets accepted standards of medical practice)
- Preventive care (health care to prevent illness or detect it at an early stage, when treatment is most likely to work best)
- Doctor visits
- Outpatient hospital care
- Durable medical equipment and supplies

What's not covered

- Most prescription drugs
- Long-term care
(also referred to as Custodial care)
- Most dental care
- Eye exams related to prescribing glasses
- Dentures
- Cosmetic surgery
- Acupuncture
- Hearing aids and exams for fitting them
- Routine foot care

Even if a service or item is covered, you'll generally have to pay deductibles, coinsurance or copays without any annual limit on those costs.

There is no out-of-pocket maximum for Original Medicare Parts A and B, which means your share of costs is unlimited. Enrolling in an individual Medicare insurance plan can help protect your pocketbook.

TIP

Once you're enrolled in an individual Medicare plan, you can make changes during Medicare annual enrollment, October 15 – December 7.

Why you might want additional coverage

If you're looking for more value and more coverage, consider an individual Medicare plan to help pay for costs not covered by Original Medicare. The added protection can help cover out-of-pocket expenses like copays and deductibles, prescription drugs, and other services like hearing, dental, or vision. There are three main categories of individual plan coverage:

- **Medicare Advantage**

(Part C) combines Part A and Part B, and often includes prescription drug coverage. Some plans may offer additional benefits like coverage for routine vision and dental care.

- **Medigap**

(also called Medicare Supplement Insurance) helps pay some of the out-of-pocket costs that aren't covered under Original Medicare.

- **Prescription drug plans**

(Part D) help pay for covered medications.

Medicare Advantage

Medicare Advantage plans can be a good value if you’re looking for bundled medical and drug coverage. Often referred to as Part C, Medicare Advantage plans provide the same hospital and medical benefits as Original Medicare, but with greater financial protection. Many Medicare Advantage plans also include prescription drug coverage.

In most cases, you’ll have no deductibles, and you’ll have a copay instead of coinsurance for most services.

Medicare Advantage plans have a maximum amount you’ll pay out of pocket, which sets a yearly cap on your cost for health services. Most plans have provider networks, so check that your preferred doctors and facilities are in the plan’s network.

To enroll in a Medicare Advantage plan, you must first be enrolled in Original Medicare Parts A and B.

Each set of triangles represents a different part of Medicare. Part C (Medicare Advantage) shows a full triangle because it includes Parts A, B and, in many cases, prescription drug coverage (Part D), under one plan.

Depending on the plan, your costs may include:

Premium

A fixed, monthly amount you pay for your Medicare plan coverage.

Copay

A flat dollar amount (for example, \$20) you pay each time you receive care or fill a prescription.

Coinsurance

A percentage (for example, 20%) you pay for your care or drugs after you meet your deductible.

Deductible

The amount you pay for medical costs before the plan begins to pay its share of your medical costs. Some plans have a separate drug deductible before they start to pay for your prescriptions.

Original Medicare
Part A

- Hospital insurance that covers:
- Inpatient hospital care
 - Skilled nursing facility care
 - Nursing home care
 - Hospice care
 - Home health care

Original Medicare
Part B

- Medical insurance that covers:
- Medically necessary services
 - Preventive services
 - Clinical research
 - Ambulance services
 - Durable medical equipment
 - Mental health
 - Limited outpatient prescription drugs

Medicare Advantage
Part C

- Covers all services under Parts A and B
- Many plans cover prescription drugs
- Many plans cover dental and vision

Prescription Drug Plan
Part D

- Covers prescription drugs

Medigap

Also known as Medicare Supplement Insurance, Medigap plans help fill “gaps” in coverage that Original Medicare doesn’t cover and can help pay some of the unpaid out-of-pocket health care costs, like copays, coinsurance, and deductibles. With this option, most people buy two separate plans—a Medigap plan for medical expenses and a Part D prescription drug plan for medications.

To enroll in a Medigap plan, you must be enrolled in Original Medicare Parts A and B. You’ll pay a monthly premium in addition to your monthly Medicare Part B premium. If you choose a Medigap plan, and want coverage for medications, you must enroll in a separate prescription drug plan.

Even if you have health conditions, all standardized Medigap plans are guaranteed renewable, meaning insurance companies can’t cancel your plan if you’re making your premium payments. Your policy will also renew automatically each year.

The best time to buy a Medigap policy is during your 6-month Medigap Open Enrollment Period that begins the first month you have Medicare Part B **and** you’re 65 or older. After this enrollment period, in certain situations you may have rights to buy a Medigap policy (guaranteed issue).

TIP

If you have a Medigap plan, you can change plans anytime, subject to underwriting.

You don’t have to wait until annual enrollment. If you want to keep your plan, it will automatically renew every year.

Types of Medigap plans

A variety of Medigap plans are available. Each plan provides different benefits, so it's important to compare before deciding. Your monthly premium is based on the coverage offered and the insurance company you choose.

Note: Plans C and F aren't available to people newly eligible for Medicare on or after January 1, 2020. If you were eligible before this date, or if you already have or were covered by Plan C or F (or the Plan F high deductible version) before January 1, 2020, you can keep your plan if you wish.

Note: When a percentage is shown, that's the portion your plan covers. You're responsible for the remaining amount.

¹ Plans F and G also offer a high-deductible plan in some states. With this option, you must pay for Medicare-covered costs (coinsurance, copay, and deductibles) up to the deductible amount of \$2,870 in 2025.

² For Plans K and L, after you meet your out-of-pocket yearly limit and your yearly Part B deductible, the Medigap plan pays 100% of covered services for the rest of the calendar year.

³ Plan N pays 100% of the Part B coinsurance, except for a copay of up to \$20 for some office visits and up to a \$50 copay for emergency room visits that don't result in inpatient admission.

Medigap plans are standardized differently in Massachusetts, Minnesota and Wisconsin. Visit our website to review the plans available in your area or discuss your options with an Alight licensed Benefits Advisor.

Guaranteed issue rights

Guaranteed issue rights, or “Medigap protections,” are your rights to buy certain Medigap policies in limited situations outside of your Medigap open enrollment period. In these situations, an insurance company:

- Must sell you a Medigap policy.
- Must cover all your pre-existing health conditions.
- Can’t charge you more for a Medigap policy because of past or present health problems.

In most cases, you have a guaranteed issue right when your other health coverage changes in some way, like if you lose your other coverage. You may also have a “trial right” to try a Medicare Advantage Plan (Part C) and still buy a Medigap policy if you change your mind.

Note: If you live in Massachusetts, Minnesota, or Wisconsin, you have guaranteed issue rights to buy a Medigap policy, but the Medigap policies are different. Some states provide additional special rights to buy a Medigap policy.

Examples of guaranteed issue periods:

You have a guaranteed issue right if...	You have the right to buy...	You can/must apply for a Medigap policy...
You have a Medicare Advantage Plan, and any of the following are true: • Your plan is leaving Medicare • Your plan stops giving care in your area • You move out of the plan's service area You only have this right if you switch to Original Medicare (rather than join another Medicare Advantage Plan).	Medigap Plan A, B, C*, D*, F*, or G* that is sold by an insurance company in your state.	• 60 days before the date your Medicare Advantage plan coverage ends. • No more than 63 days after your Medicare Advantage plan coverage ends. Note: Medigap coverage can't start until your Medicare Advantage plan coverage ends.
You have Original Medicare and an employer group health plan (including retiree, COBRA, or union coverage) that pays after Medicare pays and that plan is ending. If you have COBRA coverage, you can either buy a Medigap policy right away or wait until your COBRA coverage ends.	Medigap Plan A, B, C*, D*, F*, or G* that is sold by an insurance company in your state.	No more than 63 days after the latest of these 3 dates: 1. Date your current coverage ends. 2. Date on the notice you get telling you that your coverage is ending (if you get one). 3. Date on a claim denial, if this is the only way you know that your coverage ended.
You dropped a Medigap policy to join a Medicare Advantage plan (or to switch to a Medicare SELECT policy) for the first time, you've been in the plan less than a year, and you want to switch back (trial right).	The Medigap policy you had before you joined the Medicare Advantage plan or Medicare SELECT policy, if the same insurance company you had before still sells it. If your former Medigap policy isn't available, you can buy Medigap. Plan A, B, C*, D*, F*, or G* that is sold by an insurance company in your state.	• 60 days before the date your coverage ends. • No more than 63 days after your coverage ends. Note: Your rights may last for an extra 12 months under certain circumstances. Check with your State Insurance Department.

***Note:** Plans C and F are no longer available to people new to Medicare on or after January 1, 2020. However, if you were eligible for Medicare before January 1, 2020, but haven't yet enrolled, you may be able to buy Plan C or Plan F. People new to Medicare on or after January 1, 2020, have the right to buy Plan D or G instead of Plan C or F.

Prescription Drug Plans

Prescription drug plans (Part D) can help reduce the cost of your medications, while providing more predictable charges. Remember: Original Medicare doesn't cover most prescription drugs.

The federal government sets guidelines that all Part D prescription drug plans must meet. Each plan has a list of drugs that it covers (known as a formulary). Before choosing a Part D prescription drug plan, review its formulary to make sure your drugs are included. Plans also have different charges, so check the annual deductible, premiums, copays, and coinsurance to ensure costs are covered.

- Medicare Part D coverage is not automatic. You must enroll for coverage to begin.
- If you have other prescription drug coverage, such as Veterans Affairs (VA) coverage, you may not need an additional drug plan. Discuss any other coverage you have with a licensed Benefits Advisor.
- Part D charges a late enrollment penalty if you don't sign up when you're first eligible—unless you qualify for an exception. The penalty is a fee set by Medicare that gets added to your premium, and you pay it for as long as you have Part D.
- To enroll in a Part D prescription drug plan, you must first be enrolled in Original Medicare Parts A and/or B.

The Inflation Reduction Act of 2022 may help Medicare beneficiaries save money, improve access to affordable treatment, and strengthen the Medicare program. Visit [medicare.gov](https://www.medicare.gov) to find out how it impacts you.

Medicare Part D

HOW IT WORKS

Deductible phase You'll pay the full cost for your first \$615 in covered prescription drug charges for the year before your drug plan begins to pay its share of costs. An exception is made for covered insulin products and vaccines, which do not require payment of a deductible.

Initial coverage phase After satisfying your \$615 deductible, you'll pay a copayment or coinsurance for each covered drug (as defined by your plan) and the plan pays its share. The initial coverage continues until the \$2,100 out-of-pocket maximum is reached. After the initial coverage period, the plan pays all remaining costs.

Drug-related costs that count toward your total out-of-pocket costs:

- Covered drug costs subject to your annual deductible
- Coinsurance and copays you paid

Drug-related costs that do not count toward your out-of-pocket costs:

- Plan premiums
- Pharmacy dispensing fees (if any)
- Costs of drugs not covered under your plan

These values are accurate as of April 2025.
For the most current amounts, please visit [medicare.gov](https://www.medicare.gov).
